INDEX TO VOLUME III.

JULY TO DECEMBER,

1900.

ACCUMULATORS, Successful Use of, on Trunk Lines, Germany, 95
Acetylene *v.* Petroleum, (Ed.), 504
Acid-Blast Metal Etching (Ed.), 332
Admiralty Coal Orders, 348
Aërial Navigation, (Ed.), 644
Africa, West, *see* Gold Coast
South (*see* Cape Town *and* Transvaal)
Agricultural Machinery in, 98
Bridge Contracts for, 634
British Manufacturers and, (Ed.), 500
Coal-mining in, 492
Gold-mining in, 490
Harbour Dredgers in, 79
Trade, Future of, 632
Agricultural Implements, Opening for, in France, 728, in Russia, 232
Locomotive, Patent Compound, 187
Machinery (*see* Alcohol Plough Locomobile) for Russia, 348
in South Africa, 98
Opening for in Bulgaria, 234, in China, 98, in Cyprus, 234
Air-Pump, Edwards Patent, 183
Alarm Gauge, Novel, for Boilers, 347
Alcohol Plough Locomobile, Germany, 728
Allanson-Winn, *see* Winn, R. G. Allanson-
Alternate-Current Motor, The, Some Recent Applications of, 457
Alternators, *see* Deptford, *and* Harrogate
Aluminium in the Foundry, (Ed.), 642
The Generation of Intense Heat through the Combustion of, S. B. Archdeacon, 647
Amazon District, S. America, Opening for British Enterprise in, (Ed.), 262
America, *see* Boston, Cape Nome, Chicago, Kinnic-Kinnic, New York, Pittsburgh, United States, &c.
Circular Saw Making in, 730
Demand for British Hosiery Machines in, 728
Electro-Mobile Progress in, 350
Greatest Hydraulic Undertaking, 233
Railway Tracks treated with Oil in, 97
Taylor-White Steel Process in, 349
Test of a 1,000 h.p. Mill Engine in, 348
South (*see* Argentine Republic), Opening for British Enterprise in, (Ed.), 262
American and British Traffic Facilities compared, 372
Competition, 122
A British View of, 3
Iron and Steel Trades in, 1899, (Ed.), 13
Isthmian Canal, The, J. G. Leigh, 659.
Mechanic, The, 252
Success at the Paris Exhibition, 234
Trade with Russia, 99
Amos, Ewart C., Pneumatic Tools and Appliances, 59, 306
Anglo-German Cable, New, 469
Anomalous Condition of Steel, 349
Antiquity, The, of Tools, (Ed.), 385
Archdeacon, S. B., The Generation of Intense Heat through the Combustion of Aluminium and its Application for Industrial Purposes, 647
Argentine Republic, Wire demanded for the, 349
Armour Plate Manufacturers, German, 729
Artificial Stone Flag Press, An, 437
Attachments for a Loose Headstock, J. J. Guest, 464
Australia (*see* Greatest Gold-mine, Westralian Gold-fields, &c.), Coal-fields of, 348
Austria-Hungary, British Exports to, 99
Automatic Brake for Electric Motors, 182
Switches, New, 699
Automobile, Alcohol Plough, Germany, 728
Automotors, Railway Work and, (Ed.), 645
Awards at the Paris Exhibition, 472

BALANCED SPEED REDUCER (Brown & Co.), 185
Bale, M. Powis, Modern Stone-working Machinery, 135
Barium Peroxide in Transport, 731
Bell, Sir Lowthian, *see* British View of American Competition
Belleville Stone-arch Bridge, Pittsburgh, U.S.A., 341
Belting, Improved, 471
Belts, Fixing, on Pulleys at Right Angles, I. R. K., 346
Berlin, Foot-bridge over the Spree, 235
New Waunsee Electric Railway in, 351, 643
Novel Alarm Gauge for Boiler in Use in, 347
Bevel-wheel Pattern, Shaping the Teeth of, J. Watson, 345
Birmingham, Adoption of Trolley System in, 95
Björling, P. R., Gold-mining Machinery. 539
Blackpool, British Built Open Electric Cars for, 96
Blast Furnace Gas, Demenge *cited* on, 349
Blinds, Roller, Tin Barrels for, 471
Boiler, The Best, for Railway Snops, 350
Boilers, Coal Dust as Suitable Fuel for all, 468
Combined Water- and Flue-Tube, 705
Novel Alarm Gauge for, 347
Water-Tube, Coal-Consumption and, (Ed.), 642
Bolton, New Refuse Destructor at, 463
Boring Cylinder Liners on a Horizontal Boring Machine, "Faber," 721
Boring Machine, Horizontal, Boring Cylinder Liners on a, "Faber," 721
Borns, H., The Position of Electro-Chemistry, 23
Boston, U.S.A., Elevated Railway Drawbridge at, 347
Under-water Pipes for Sewage at, (Ed.), 384
Boyer, Prof. J., The International Exhibition at Paris, 42
Brake, An Automatic, for Electric Motors, 182
Breaking up Large Castings, 93
Bridges—
Bridge Contracts for S. Africa, 634
Foot-bridge over the Spree, 235
Iron Bridge, projected, across the Tagus, 232
New East River Bridge, New York, 94
Recent Bridges, 338
British Association, The, (Ed.), 260
Built Open Electric Cars for Blackpool and Cape Town, 96
Columbia (*see also* Canada), Electrical Machinery required for, 233
Empire, Trade within the, 632
Enterprise, Another Opening for (Amazon District), (Ed.), 262
Exports to Austria-Hungary, Chicago and Poland, 99
Hosiery Machines, Demand for, in America, 728
Locomotives preferred in Japan, 97
Manufacturers and S. Africa, (Ed.), 500
Municipal Supporters of Foreign Competition, (Ed.), 131
Navy, The, 7
Ships, careless Handling of Goods on, (Ed.), 384
Trade with Russia, 378-9, with Japan, 97
View of American Competition, A, 3
Brown & Co.'s Balanced Speed Reducer, 185
Buchanan's Patent Engine Counter, 323
Bulgaria, Openings for Agricultural Machinery in, 234
Bulman, H. F., The Greatest Gold Mine in the World, 517

CABLE (*see* Submarine Cables), New Anglo-German, 469

Cable Steamer, Twin Screw, *John Pender*, 439
Caledonian, ss., Refrigerating Plant for, 76
Calliper-, Indicating, Denham, 344
Cam, Heart-shaped, Setting out a, 92
Canada(ian) *see also* British Columbia), Central, Chamber of Mines, (Ed.), 383
Iron used in Europe, 217
Steel Plates, (Ed.), 134
Canals, American Isthmian, J. G. Leigh, 659
Dortmund-Ems, 728
Elbe-Trave, 467
Nicaragua, The (*see* Leigh), (Ed.), 16
Panama (*see* Leigh), 94
Power Canal, Sault Ste. Marie, 233
Proportions of, (Ed.), 261
Canning, C. E., Fast Cruisers, 288
Cape Nome, Alaska, Gold-mining at, 351
Cape Town, British-built Open Electric Cars for, 96
Refrigerator Ships at, 98
Carelessness, The Penalty of, 384
Cast-iron Wheels, J. R. Kelly, 465
Castings, Large, Breaking-up, 93
Malleable, Manufacture of, 96
Catalytic Process in the Sulphuric Acid Industry, 731
Central Canada Chamber of Mines, (Ed.), 383
London Railway, W. N. Twelvetrees, 374, 419, 685
Well Bucket-Ladder Dredger, 79
Chappé Industry, The, on the Continent, 234
Chemical Progress, 731
Chester Sewage Scheme, 235
Chicago, U.S.A., British Coal exported to, 99
Eight-Track Rolling Lift Bridge at, 338
China, Effect of recent Troubles in on Trade of, 125, and on Russian transit Trade, 645
Latest Chinese Puzzle, The, 125
Some Account of Mining in, A. Edmonds, 505
Chippenham, Official Opening of a Pneumatic Tool Factory at, 81
Chuck, Special, for Square Centre, 230
Telescopic Eccentric Ratchet Turning, T. Bonehill, 465
Circular Saw Making in America, 730
Civil Engineering, 94, 347, 467, 728
Clayton & Shuttleworth's Patent Compound Agricultural Engine, 187
Clean Oil, S. Mills, 465
Coal, Admiralty Orders for, 348
Consumption and Water-Tube Boilers, (Ed.), 642
Fields of New Zealand, 348
Dust as Suitable Fuel for all Boilers, 468
Sifter, Improved, for Iron-founders, 231
Miners' Wages, Northumberland, 352
Mines, Explosives in, (Ed.), 501
Mining, Economics of, L. W. de Grave, 587
in S. Africa, 492
Question, The Great, 258
Coast Line (*see also* Foreshore), Protection of the, (Ed.), 266
Cold Storage Trade, The, (Ed.), 14
Combined Water and Flue Tube Boiler, 705
Commercial "Red Tape," 264
Comparative Cost of Power Generation, (Ed.), 643
Copper, Demand for, in Turkey, 234
Cost of Power in Cotton Mills, (Ed.), 15
Cotton Mills, Cost of Power in, (Ed.), 15
Cruisers, Fast, C. E. Canning, 288
Cyaniding, The Modern Practice of, Capt. C. C. Longridge, 529
Cylinder Liners, Boring, on a Horizontal Boring Machine, "Faber," 721
Cyprus, Opening for Agricultural Machinery in, 234

Deep Water, Pipe-laying in, Boston, U.S.A., (Ed.), 384
de Grave, *see* Grave, L. W. de
Demand for Iron Goods and Machinery, 234
for Steel Works in Spain, 97
Deptford, 1,500 k.w, and 650 k.w., Alternators at, 69
De Tunzelmann, *see* Tunzelmann, G. W. De
Dnieper River, Utilisation of Falls on, for Electrical Power Purposes, 469
Dock Extension, Manchester, (Ed.), 132
Domestic Electric Supply at High Voltage, (Ed.), 263
Dortmund-Ems Canal, 728
Draught, *see* Induced Draught
Drawbridge worked by Gasoline Engine, U.S.A., 94
Dray, An Efficient Miller's, 471
Dredger, Central Well Bucket Ladder, 79
Drilling Device, A., S. Mills, 721
Long Holes in Wood, H. Bentley, 464
Driving Gear, The "Standard," 434
Dynamometer, New Torsion, 472
New Torsion or Recording Torque Meter, 320

Earnings of Refrigerator Ships, 98
Eccentric Telescopic Ratchet Turning Chuck, T. Bonehill, 465
Economics of Coal-mining, L. W. de Grave, 587
Economy of Fuel, 472
Editorial Opinion, 12, 131, 260, 381, 500, 639
Edmonds, A., Some Account of Mining in China, 505
Edwards Patent Air Pump, 183
Eight-Track Rolling Lift Bridge, Chicago, 338
Egypt, Ancient Tools found in, (Ed.), 385
Elbe-Trave Canal, The, 467
Electric Automatic Brake for Electric Motors, 182
Cars, *see* Blackpool
Kitchen, Paris Exhibition, 469
Locomotion for Railways, (Ed.), 643
Motors, Automatic Brake for, 182
Railways, *see* Central London Railway, *etc.*
Single Rail Track, 186
Sound Transmission, (France), 233
Supply, Domestic, at High Voltage, (Ed.), 263
Traction (*see* Electricity for Haulage in Mines, Single Rail Track, *etc.*), in Germany, 351
Tramways and Railways Exhibition, 128, 205
Electrical Apparatus, *see* Alternate Current Motor
Engineering (*see* Electric, Electricity, International Tramways Exhibition, Telegraphy, *etc.*), 195, 350, 469, 729
Progress of, in the United States, 469
inventions of Tesla, (Ed.), 503
machinery required for B. Columbia, 233
Methods of Heating as applied to the Working of Metals, G. W. De Tunzelmann, 387, 677
Electrically-Driven Hot Saw, An, 437
Printing Machine, 697
Electricity (*see* Cable, Telautograph, Telegraphy, *etc.*), for Haulage in Mines, 234
in Mining, the Past, Present, and Future of, S. F. Walker, 560
as a Productive Power, (Ed.), 13
Electro-Chemistry, (Ed.), 261
Mobile Progress (in America), 350
Elevated Railway Drawbridge, Boston, U.S.A., 347
Employer, A Popular (H. C. Longsdon), 234
Engines, *see also* Fire and Gas Engines, Locomotives, Oil Engines
Counter Buchanan's Patent, 323
Lathe, New Heavy, 12-inch Swing, 73
Stationary, *see* Paris Exhibition
Engineering Society, The Largest (in Germany), 471
Etching Metal Plates by the Acid-Blast, (Ed.), 382
Euston Station Extension, 97
Evolution of Steel-making, (Ed.), 265
Exhaust Steam, Oil Separation from, (Ed.), 134
Exhibitions, *see* Electric Tramway, Glasgow, Paris, *etc.*
Exhibits, Some Notable, at the Paris Exhibition, 188, 324, 448, 708
Explosives in Coal Mines, (Ed.), 501
Exports (British) to Austria-Hungary, Chicago and Poland, 99
Extension of Euston Station, 97

Factory Legislation, 256
Fast Cruisers, C. E. Canning, 288
Feilden, T., To Our Readers, 2
Feilden's Magazine, Independent Platform for, 498
Fire-engine, Self-propelled Steam, 72
Flanging, Pressures for Riveting and, 348
Flow, The, of Solids, (Ed.), 12
Flue Tube and Water Tube Boiler, Combined, 705
Foot-bridge, An Elegant, over the Spree, 235
Foreign Competition, British Municipal Supporters of, (Ed.), 131
Foreshores, Protection of, Utilisation of Tidal and Wave Action for the, R. G. Allanson-Winn, 267
Formosa, New Railway in, 730
Foundry, Aluminium in the, (Ed.), 641
France (*see* Chappé Industry *and* Paris Exhibition), Electric Sound Transmission in, 233
Ingenious Bridge over the Seine, 340
Opening for British Agricultural Machinery in, 728

France, Regulations for Transport of Barium Peroxide in, 73
Use of American Locomotives in, 200
Fraud, A, in Steam Tubes, 233
Freedom Once More! (in S. Africa), 490
Fuel, *see* Coal Dust
Economy, 472

Gas, *see also* Blast Furnace Gas
Engines, 350 h.p., 444
Heater, A Powerful, J. Green, 723
Gasoline Engine, Drawbridge operated by, U.S.A., 94
Gaukroger, Sykes & Roberts, Ltd., Sale of Iron Stop Valves, etc., 235
Generation, The, of Intense Heat through the Combustion of Aluminium, S. B. Archdeacon, 647
Geological Survey, Indian, (Ed.), 502
Geometry for Metal Plate Workers, E. Cope, 721
Germany, *see* Berlin, Dortmund and Elbe Canals, Spree River, *etc.*, Alcohol, Plough Locomobile, 728
Armour-Plate Manufacturers in, 729
Electric Traction in, 351
Illuminants used in, 504
Largest Engineering Society, 471
New Method of Iron and Steel Welding in, 470
Successful Use of Accumulators on Trunk Lines in, 95
Girder Construction in Small Racing Yachts, L. Hope, 17
Glasgow International Exhibition, 1901., 495
Gold Coast, The, 254
Deposits to be leased in Russia, 730
fields, The Westralian, 573
Mine, The Greatest in the World, H. F. Bulman, 517
Mining at Cape Nome, Alaska, 351
in S. Africa, 490
Machinery, P. R. Björling, 539
Government Factories, Machinery in, (Ed.), 641
Grave, L. W. de, Economics of Coal Mining, 587
Great Britain (*see* British) at the Paris International Exhibition, 129
Coal Question, The, 258
New Industry in, Official Opening of a Pneumatic Tool Factory at Chippenham, 81
Northern Railway, Widening of London Approaches, 34
Greatest Gold-Mine in the World, The, H. F. Bulman, 517
Hydraulic Undertaking, 233
Guns, *see* Quick-firing Guns

Handbooks of Steel Sections, (Ed.), 262, 639
Harbour and River Work, *see* Canals *and* Dredgers
Harrogate Electric Light Works, High-Speed Engine and Alternator for, 78
Headstock, Loose, Attachment for a, J. J. Guest, 464
Heart-shaped Cam, Setting out a, 92
Heat, The Generation of Intense, through the Combustion of Aluminium, S. B. Archdeacon, 647
Heating, Electrical Methods of, as applied to the Working of Metals, G. W. De Tunzelmann, 337, 677
High-Speed Engine and Alternator for the Harrogate Electric Light Works, 78
Voltage, Domestic Electric Supply at, (Ed.), 263
Hill, C. W., Piece-Work, 408
Holes, Long, Drilling in Wood, W. Bentley, 464
Holland, Fuel Experiments in, 468
Hope, L., Girder Construction in Small Racing Yachts, 17
Hopper Barge, Launch of a, Scotland, 730
Hosiery Machinery, British, Demand for, in America, 728
Hot-Saw, An Electrically Driven, 437
Hydraulic Undertaking, The Greatest (Sault Ste. Marie Power Canal, U.S.A.), 233

Ice-making, Pure Water for, (Ed.), 640
Imports (of British Goods) to Chicago, 99
Improved Belting, 471
Plate-bending Machine, 446
Improvising an Ordinary Horizontal Milling Machine for Vertical Milling on Light Work, 92
Independent Platform, An, for Feilden's Magazine, 498
India(n) Geological Survey, (Ed.), 502
Technical Education for, 493
Indicating Callipers, Denham, 344
Induced *v.* Natural Draught, Some Experiments with, 703
Industrial "Little Englanders," 9
Progress, 94, 232, 347, 467, 728
Topics, Notes and Comments on some, J. Vose, 725
Ingenious Bridge over the Seine, 340
Ingot-Mould, A Revolving, 91
International Exhibition, Glasgow, 1901, 495
The, at Paris, Prof. J. Boyer, 42
Tramways and Light Railways Exhibition, Royal Agricultural Hall, 205
Iron, American, in British Shipbuilding, 637
Bridge over the Tagus, 232
from Canada used in Europe, 217
in Spain, 97
Goods and Machinery, Demand for, 234
Iron and Steel, 96, 349, 470, 729
Iron and Steel Trades, American, in 1899., (Ed.), 13
Novel Method of Welding, Germany, 470
and Stop Valves, 235
Iron Founders, Improved Coal Dust-Sifter for, 231
Iron Trade and Shipbuilding Prospects, 635
Italy, *see* Chappé Industry *and* Simplon Tunnel

Japan (*see also* Formosa), Demand for Machines and Transmitting Belts in, 232
First Sleeping Car built in, 470
Preference for British Locomotives in, 97
John Pender, Twin Screw Cable Steamer, 439

Kinnic Kinnic River, U.S.A., Drawbridge over, operated by Gasoline Engine, 94
Kitchen, Electric, at the Paris Exhibition, 469

Lamp, "Lucal" Portable Petroleum, 181
Latest Chinese Puzzle, The, 125
Lathe, New Heavy 12-inch Swing Engine, 73
Launch of a Hopper Barge, Scotland, 730
Laval Steam Turbine, The, 348
Leaders, 2, 122, 252, 372, 490, 632
Leigh, J. G., The American Isthmian Canal, 659
Leith, North British and Cold Storage and Ice Co.'s Premises at, 98
"Little Englanders," Industrial, 9
Locomobile Alcohol Plough, Germany, 728
Locomotive (*see* Engines, Motors, *etc.*), Patent Compound, 167
London (*see also* Central London Railway)
Electric Railway in, 643
Suggestions for a new "Tube" Line in, 729
Traffic Facilities, 372
London County Council and the Thames Steamer Service, 348
Long Rods, Machining, H. M. Hallsworth, 463
Longridge, Capt. C. C., The Modern Practice of Cyaniding, 529
Longsdon, H. C. (A Popular Employer), 234
Lord Selborne and the Navy, (Ed.), 642
"Lucal" Portable Petroleum Lamp, 181

Machine Tools, *see* Engine Lathe, International Tramways Exhibition, Pneumatic Tools, Some Notable Exhibits, Paris Exhibition, Second Instalment, *etc.*
Machinery (*see* Agricultural, Stoneworking Machinery), for Gold-mining, P. R. Björling, 539
Machinery Appliances and Processes, 69, 181, 320, 434, 697
in Government Factories, (Ed.), 641
Modern Stone-Working, M. P. Bale, 135
Tools, and General Products for Russia, 348
Machines required for Japan, 232
Machining Long Rods, H. M. Hallsworth, 463
Malleable Castings, Manufacture of, 96
Manchester Dock Extension, (Ed.), 132
Ship Canal, (Ed.), 386
Manuel, Mr., on Propeller Shafts, (Ed.), 502
Manufacture of Malleable Castings, 96
of Steam Hammers, *ib.*
Manufacturers of Armour Plate, German, 729
